Update on CSAP meeting

Marcia gave an update on the CSAP meeting that took place on January 12<sup>th</sup>. CSAP thinks 6 funding priorities are too many and we need to narrow our focus to 3 instead. The three they suggested were alcohol, cocaine, and meth. The group meeting felt that the state already allocated many resources to tobacco prevention and cessation. Marijuana and prescription drugs were removed as areas of funding priority.

The new priorities will be presented to the executive committee at their meeting this week and then they will be presented to the statewide advisory council on Tuesday, January 23<sup>rd</sup>. It will take CSAP between 2-4 weeks to approve the update plan with revise priorities.

Applicants must work through the LCCs to apply for funding. All community contracts must be out by July 1 (the end of the fiscal year) and if they are not, they cannot be awarded after this date.

The IPRC will provide training and technical assistance with the first informational session in February. Instead of 7 regional meetings, there will be 3-4 including South Bend, Indianapolis (possibility of 2), and New Albany. Anyone who is interested in applying must attend one of these sessions.

Marcia and Dave will meet to talk about the training needs and utilizing the LCCs if possible.

Timeline and Roll Out

There is a hold on all timelines and project roll out activities until CSAP gives their final approval. The Governor's office also has to approve the priorities before we can proceed.

Newsletter

Martha will send out the newsletter this week with some general information about the grant as planned but will remove all date specific information.

Website

The website information has been updated but is not yet live – the hope is that it will be live by the end of January.

**Next meeting: January 23<sup>rd</sup> – 8:30 a.m.**
